Technical Writing for Papers and Proposals

Most engineers assume that one form of technical writing will be sufficient for all types of documents. This is absolutely not true. This presentation will help you sharpen your technical writing skills so that you have a greater chance of your papers getting accepted and your proposals succeeding.

Engineering Technician Exam Sample Questions

measures the ability to use English correctly, to follow directions, and to solve word problems requiring arithmetic calculations. Part 1 is a highly speeded test. There are 100 questions, and the time limit is 7 minutes. Some people cannot finish all the questions in the 7 minutes, but it is important to answer as many as possible.

ENGINEERING REPORT WRITING

Simple technical English should be used. Engineering and trade terms may be used, but the style should be dignified. Short sentences are preferred. Acronyms may be used but only if they are defined at the first appearance. For further guidelines on style, see Appendix A, or refer to a writing handbook such as *The Little, Brown Handbook*, by H R.
